Hello, Friends of SPF;

We are in full planning mode for the Annual Conference of the Spastic Paraplegia Foundation. The conference will be held in Nashville, Tennessee July 22-24, 2022. The conference is an ideal platform to market products, services, and extend your business name and logo to a national and international audience in the disability community. Let us know of your interest in being a Sponsor, an Exhibitor, or perhaps you have items to include in our Welcome Bags for attendees. Attached is a listing of our Sponsorship Levels. SPF created many opportunities for sponsors to engage with the spastic community at the annual conference. There are options for every budget. We will work with you to meet your marketing needs.

The Spastic Paraplegia Foundation has a primary focus of raising money to fund medical research to help find a cure and grow awareness concerning two primary rare diseases like ALS, which are HSP and PLS. This conference is the largest gathering of those affected by hereditary spastic paraplegia and primary lateral sclerosis (HSPandPLS) in the world. SPF has coordinated and hosted this conference since 2002. The conference is not a fundraising effort but a platform for doctors and scientists to inform and educate attendees and caregivers that are fighting these terrible diseases daily. Also, the conference is an opportunity to grow awareness and connectivity to families and people all over the world bringing members together to support and learn about the various symptoms and issues this population must deal with every day.

Please contact me soon at SpasticConference@gmail.com as our deadline is April 15 to make sure we get logos on our website, newsletters, and sponsor boards. Should you have any questions, please do not hesitate to contact me.

Best Regards,
Norma Pruitt
Executive Director
Conference Coordinator
